LALIT RAMESH SAWANT

Frontend Engineer | Angular Expert | Tech Lead | Senior Frontend Developer

Email: LLTSWNT@GMAIL.COM **Skype ID:** lalitsawant91

Contact No.: (M) +91 9881989784 **LinkedIn**: https://www.linkedin.com/in/lalit-sawant/

Career Summary

A highly accomplished **Frontend Engineer** and **Angular Expert** with **over 10 years** of experience delivering scalable, high-performance web applications. Proven expertise in architecting and leading the development of modular solutions using modern **Angular** (v2 to v18), **micro-frontend** patterns, and reusable UI component libraries. A dedicated leader with a track record of mentoring cross-functional teams, driving performance optimization, and championing best practices in Agile and DevOps environments. Committed to delivering enterprise-grade, user-centric solutions that align with business objectives and adhere to the highest standards of code quality and accessibility (WCAG).

Core Competencies & Technical Skills

Category	Skills
Frontend Technologies	TypeScript (ES6+), JavaScript, HTML5, CSS3, SCSS, RxJS
Frameworks & Libraries	Angular (2-18), Angular CLI, Angular Material, PrimeNG, Bootstrap, AG Grid, NgRx
Architecture & Design	Micro Frontends, Module Federation, Monorepo (Nx), Component-Based Architecture, Web Components
State Management	RxJS, NgRx
DevOps & Tooling	Webpack, Git, GitHub, Bitbucket, CI/CD (Jenkins), npm
Testing & Debugging	Jasmine, Karma, Jest, Cypress, Chrome DevTools
API Integration	RESTful APIs, JWT, OAuth 2.0
Performance & UX	Lazy Loading, Code Splitting, OnPush Strategy, Signals, Caching, Responsive Design, Accessibility (WCAG)
Agile & Collaboration	Scrum, Kanban, JIRA, Confluence, Figma
Leadership	Technical Mentoring, Code Reviews, Solution Design, Stakeholder Communication

Professional Experience

Senior Lead Software Engineer | *Virtusa Consulting Services Pvt Ltd, Pune* | *May 2020 – Present*

Wholesale Lending Credit Risk (WLCR):

Role: Module Lead & Individual Contributor

Tech Stack: Angular 18, TypeScript, HTML5, CSS3, Bootstrap, Angular Material, RxJS, AG-Grid, Jest, Cypress, Micro-frontend development, RESTful APIs.

- Architected and led the implementation of a scalable **micro frontend architecture**, improving modularity and deployment flexibility.
- Built and integrated reusable **UI component libraries** to accelerate development and maintain consistency.
- Applied **code splitting, lazy loading, and on-demand module federation** to boost performance and reduce load time by ~30%.
- Collaborated with product owners, UX teams, and backend developers to define robust **frontend architecture** aligned with business requirements.
- Ensured high code quality via **unit testing (Jest)**, **E2E testing (Cypress)**, and automated **CI/CD pipelines**.
- Provided **technical leadership**, conducted code reviews, and mentored junior engineers on Angular best practices and scalable design patterns.

CitiRisk Commercial:

Role: Module Lead

Tech Stack: Angular 10, TypeScript, HTML5, CSS3, SCSS, Bootstrap, PrimeNg, Jasmine, Karma, Git, Bitbucket, RESTful APIs.

- Spearheaded frontend module design and architecture for a **commercial risk assessment platform**, aligning with enterprise standards.
- Translated complex business logic into **modular, testable Angular components** using Reactive Programming (RxJS).
- Owned end-to-end feature development, including API integration, testing, and UI performance enhancements.
- Acted as a **bridge between business and technical teams**, ensuring timely delivery of high-impact features.
- Recognized with the **Spot Award and Stellar Award (Q2 2021)** for exceptional delivery and collaboration.

Senior Software Engineer | *Nihilent Limited, Pune* **|** *May 2018 - April 2020*

MoneyWeb:

Role: Senior Frontend Developer

Tech Stack: Angular 7, TypeScript, HTML5, CSS3, SCSS, Bootstrap, Adobe Analytics, Jasmine, Karma, Agile, Git, Bitbucket, RESTful APIs.

- Designed and implemented interactive, **responsive user interfaces** aligned with digital banking workflows.
- Collaborated with UX/UI teams to translate complex requirements into seamless web experiences.
- Enhanced performance using **lazy loading**, route optimizations, and efficient state management with RxJS.
- Ensured **unit test coverage and quality assurance** using Jasmine/Karma and participated in release cycles.
- Participated in Agile ceremonies and sprint planning, ensuring transparency and timely delivery.
- Recognized with **Client Appreciation and Breakthrough Award** for excellence in delivery and collaboration.

Stockbroking:

Role: Senior Frontend Developer

Tech Stack: Angular 4, TypeScript, HTML5, CSS3, jQuery, Bootstrap, Adobe Analytics, Jasmine, Karma, Agile, Git, Bitbucket, RESTful APIs.

- Developed real-time modules for **portfolio and trading management**, enabling seamless trade execution.
- Refactored legacy jQuery modules into **modern Angular components** to improve maintainability and performance.
- Contributed to **cross-browser compatibility and responsive design** to support a diverse user base.
- Led bug triage sessions and ensured high-quality feature rollouts via regression and functional testing.

Software Engineer | *Indecomm Global Service Pvt Ltd, Pune* **|** *April 2015 - February 2018*

SSNA eLearning eBook Application:

Role: Software Engineer

Tech Stack: HTML5, jQuery, JavaScript, CSS3, SVN Command Line, Node.js, Angular 2, Core JAVA.

- Designed and developed interactive e-learning modules with **rich media features** and quizzes.
- Implemented dynamic rendering of lessons using templates and JSON-driven data structures.
- Worked in close collaboration with educational content teams to maintain high usability standards.
- Recognized with **IGS "Superlative Customer Satisfaction Award"**, **Relentless Dedication Award**, and **Team of the Quarter Award**.

Kids Discover, GO Math, Curious World:

Role: Software Engineer

Tech Stack: HTML5, jQuery, JavaScript, CSS3, SVN Command Line, Node.js, Core JAVA.

- Developed engaging frontends for children's educational apps using interactive animations and games.
- Delivered consistent releases across multiple learning products in Agile teams.
- Received **IGS Team of the Quarter Award** for successful multi-product delivery.

Certifications

- **Full Stack Development (React, Java) –** Virtusa Consulting Services Pvt Ltd – 2024
- **Angular - The Complete Guide -** Udemy – 2023
- **Post Graduate Diploma in Advanced Computing (PG-DAC)** - C-DAC Acts, Pune, 2015, 69.25%

Academic Highlights

- **M.Sc. (Computer Science)** - H.A.L. College of Science and Commerce, Ozar, Nashik, 2013, 63.27%
- **B.C.S. (Bachelor of Computer Science)** - Y.C.I.S. Satara, 2011, 61.10%
